

RAY "COPPERS"

The Copper Securities of Arizona, and particularly of the RAY CAMP, are now attracting widespread attention and are very active.

Ray Consolidated bid \$24.50—asked \$25.00
Ray Hercules bid \$ 3.50—asked \$ 3.75
Arizona Ray bid 26 1/2c—asked 27 1/2c

RAY CONSOLIDATED is one of the greatest copper producing properties in the world—a Jacklin corporation—it has eighty miles of tunnels, all in ore; and has paid \$7,000,000 in dividends—with the increasing of the dividend rate from \$2 to \$3 per share. Chas. A. Stoneham & Co. of New York—the biggest authority on copper stocks—predicts \$35.00 for RAY CONSOLIDATED.

RAY HERCULES

This stock is listed in Stoneham's office under the head of "Junior Coppers." The RAY HERCULES has four churn drills working—has ten million tons of ore blocked out, and is building a million dollar concentrator. Last week while we were on the RAY HERCULES ground—the Company made a strike of native copper—a wonderful sight—believed to be the most important strike ever made in the RAY CAMP. We predict higher prices for RAY HERCULES.

ARIZONA RAY

The opportunity in the RAY CAMP, we believe, is the shares of the ARIZONA RAY—at 27 1/2c. The East and West—right in the RAY CAMP—orders have poured into brokers all over the country for ARIZONA RAY.

A Los Angeles broker—J. E. Meyer & Co., No. 231 Byrne Building, Los Angeles, who sold over 1,000,000 shares of Jerome Verde at 10c to \$1.00—says: "I consider that ARIZONA RAY has greater possibilities than Jerome Verde, and should be to the great RAY CONSOLIDATED what the United Verde Extension is to the United Verde,—if you want to make more money than you ever made in any stock before, and remember, I sold Jerome Verde at 10c—now \$2.00. Buy ARIZONA RAY."

Arizona Ray Copper

The ARIZONA RAY COPPER COMPANY owns, free and clear of debt—twelve (12) claims adjoining RAY CONSOLIDATED COPPER COMPANY and the RAY HERCULES COPPER COMPANY at Ray, Arizona.

These claims were formerly owned by officials of the RAY CONSOLIDATED Copper Company, and are in the same proven ore zone as the RAY CONSOLIDATED and RAY HERCULES—and development will prove them to be equally as rich.

Edmund L. Hiatt, for six years Chief Engineer of the RAY CONSOLIDATED, has accepted the Mine Management of the ARIZONA RAY.

Work has already started on the property. One churn drill has already been purchased and will start at work as soon as delivered. Another churn drill has been ordered.

Chief Engineer Hiatt believes he will strike the ore body by churn drilling at 150-feet—THIS MEANS, WE BELIEVE, 15 days' drilling.

When one main ore body is struck by churn drilling—we predict ONE DOLLAR A SHARE FOR ARIZONA RAY.

ARIZONA RAY property was also reported upon by Fred E. Young, M. E., and, F. M. Dorsey, a well known mining man. In summing up his report, Mr. Dorsey says:

"ARIZONA RAY properties should prove up to contain between 30,000,000 and 40,000,000 tons of ore. I expect that on account of the secondary enrichment along the Calumet vein, we will find some extremely rich ore that will carry the total tonnage to the high point. If we do, the property is worth 40 per cent of as much as RAY CONSOLIDATED.

"This is, unquestionably, Mr. Wilson, the best proposition you have ever been connected with, and will make every man who goes into it not a few measly dollars but all the money he will ever need."

The ARIZONA RAY COPPER COMPANY'S office is at Phoenix, Arizona, but its executive office is at Ray, Arizona, where its Assistant Treasurer and Mine Manager—Mr. Edmund L. Hiatt, will be glad to meet any one.

The officers of the Arizona Ray Copper Company, and their references, are as follows:

W. A. Stuart, President, a resident of Los Angeles, formerly from Livermore Falls, Maine. References: National Bank of Long Beach, Long Beach, Cal., First National Bank of Livermore Falls, Maine.

Philip M. Savaga, Vice-Pres., a practicing physician of San Bernardino, Cal. References: Any bank in San Bernardino, Cal.

J. L. Milligan, Secretary, a resident of Oxnard, Cal. Reference: The A. Levy Bank of Oxnard, Cal.

L. L. Wallace, Director of the Company, a resident and attorney of Oatman, Ariz. Reference: Central Bank of Oatman.

C. E. Stevens, Director, a resident of Ocean Park, Cal. Reference: Bank of Ocean Park, Ocean Park, Cal.

The Company's depository is the Hellman Commercial Trust & Savings Bank, Third and Spring Street Branch, Los Angeles; and, the Gila Valley Trust and Savings Bank, Ray, Arizona.

Arizona Ray should advance rapidly. Listed today in Los Angeles. Application pending on several stock exchanges.

A R

NOTICE

The U. S. Vanadium Development Co. desire to announce that Mr. C. J. Price, who was at the Homestake Mine at Leeds, South Dakota, for fifteen years, and thereafter in South Africa in charge of properties for English syndicates for twelve years, that is paying annually between eleven and twelve million dollars in dividends, and when he resigned his position with them, was receiving a salary of \$20,000.00 per annum, has made a most favorable report on our property which we will be very glad to show to anyone who will call at our office, or, we will mail a copy of said report upon request.

Mr. price has an International reputation for his honesty and ability as a mining engineer.

U. S. VANADIUM DEVELOPMENT CO.

HOME ECONOMICS DEPARTMENT OF FAIR UNDER MISS HARBECK

The Home Economics department of the state fair, now in charge of Miss Julia Harbeck, teacher of Domestic Science at the Phoenix high school, will be on a much higher plane this year than ever before.

In the first place the old hit and miss idea of judging is a thing of the past and the score card system of percentages will be utilized by the judges.

Miss Harbeck will have five of the most prominent ladies of Phoenix to act as a subcommittee and they are working hard to take the Department of Home Economics out of the standard and are putting it on the advanced plane of a present day science.

The change can be more readily conceived if you will judge the old time county schools with the present day high schools.

Miss Harbeck and her committee are working hard to have every thing so systematized by the opening day of the fair that there will be no confusion in their department.

There will be practical demonstrations of cooking, jarring of fruits and jellies, needle work and in fact, anything that can possibly be of help to the ladies who will visit their department.

They have opened their department to the world this year and there will be exhibits of needle work and embroidery from all portions of the United States.

A mass of correspondence relative to entries is accumulating at the fair offices and there is no doubt that this year's exhibit will be bigger, better and more helpful than ever before.

Miss Harbeck on account of her special training as a teacher of Domestic Science, brings to her work as superintendent of the fair an especial fitness that will raise this department into the front rank of the March of progress at the fair that is in evidence all along the line this year.

Special music by choir, J. F. Westberg, chorister, Joseph Ernst Hermer, pastor.
